VPN Connectivity Agreement

PURPOSE

The City of University Place Police Department hosts a Department of Corrections', [Department], Community Corrections Officers (CCO's) at their location. The specific locations are identified in the main contract, of which this is an addendum. The Agency has agreed to allow the CCO's use of their network infrastructure and Internet connectivity for the purpose of connecting to the Department network via a Virtual Private Networking (VPN) session. This Addendum will outline agreed upon roles and responsibilities between the Department and the Agency, for the support of the described connectivity.

PART I – DEPARTMENT RESPONSIBILITIES

1. The Department will supply the software client and digital key fob for Department staff to use in establishing their VPN connection to the Department network. The software, fob, and resultant VPN connection to the Department network will only be used by authorized Department staff using their Department owned and managed computing equipment.
2. The Department will ensure that the VPN software installed, on their owned computer, will not allow split tunneling. This means that Department staff will not be able to connect to the Agency resources on their network, such as printers, files, terminal services, desktop faxing, or the like. The sole purpose and use of the Agency infrastructure and its provision of Internet connectivity will be strictly for the connection of Department owned computers to the Department network, to access Department data and resources.

PART II – AGENCY RESPONSIBILITIES

1. The Agency Information Technology department agrees to provide the network infrastructure and Internet connectivity that will allow the Department staff to establish a VPN connection to the Department network.
2. When there are scheduled Agency network outages, which may impact Department staff connectivity to the Department network, the Agency agrees to notify the Department staff as soon as they reasonably can.
3. The Agency Information Technology Director shall have the final authority to determine the schedule and services, to be provided by the Agency employees, to carry out the Agency's responsibilities under this agreement.
4. The Agency staff will not use the Department VPN connection to gain access to Department data or resources.

PART III – CHARGES FOR SERVICE (where applicable)

The Agency will be compensated for the services provided herein, as follows:

1. The Agency will be compensated at the rate of \$25.00** per hour for any services performed by Agency staff, as required to support the Agency infrastructure in place for the Department's use in connecting its computing equipment to the Department network. The Agency will notify the Department of any billable work to be performed by their staff prior to any work being done. The approval to proceed with requested work will be provided by the Departments' Community Corrections supervising Field Administrator. All work that impacts or alters the Department's owned computers connection to the Department network equipment will be accomplished in coordination with the Department's local Information Technology staff.
2. Any increases to these agreed upon charges must be made, in writing, to the Department at a minimum (30) days advance notice. Normally, increases in cost for the services provided by the Agency should be negotiated when the contract is reviewed.

*** This amount represents mid-range ITS4 hourly rate.*
